

D. Our assessment of the status of the 7 recommendations

The department has made progress towards implementing the 7 recommendations. We assessed that it has fully implemented 2 of the recommendations and partially implemented 5. Figure D1 details the recommendations and our assessments.

**Figure D1
Implementation status**

	Recommendation summary	QAO assessment
Listing	Proactively nominate species for listing or reclassification under the Nature Conservation (Wildlife) Regulation 2006. Classification reviews should be periodical.	Partially implemented
	Review the <i>Nature Conservation Act 1992</i> to ensure timely listing of threatened species.	Fully implemented
	Increase the transparency of the threatened species assessment process by publishing it online.	Partially implemented
Assessing	Further develop and implement its draft project governance framework and project plan for the Common Assessment Method project to ensure the department meets all its obligations under the Memorandum of Understanding.	Partially implemented
	Review the classification status of Queensland's native species currently listed in the Nature Conservation (Wildlife) Regulation 2006 to prepare for the transition to the Common Assessment Method.	Partially implemented
Conserving	Develop an integrated and comprehensive conservation strategy for Queensland to meet the requirement of the <i>Nature Conservation Act 1992</i> .	Fully implemented
	Monitor and report on the population and trends of threatened species.	Partially implemented
